

Heiber + Schroeder Window Patching Machines

Heiber + Schroeder is an over 35 year old specialty manufacturer located in Erkrath, Germany. With over 200 total installations in North America, H+S is known as a product innovator and a market leader in Window Patching equipment and fast becoming a dominant force in the Tray Forming industry.

No matter if you want to show the fill level, protect the content or allow a glance at the product inside: brilliant packaging ideas require excellent realization to unfold their full potential.

The images below show examples of the types of windowed cartons that can be completed using Heiber + Schroeder's Window Patchers.
