

## SCM Folder Gluers – Since 2007

SCM, founded in Taiwan, is China's largest manufacturer dedicated solely to the production of Folder Gluers. SCM is an industry leader in Folding Gluing technology offering world-class equipment in partnership with recognized global component sources. Nearly 1,000 SCM Folder Gluers are in production across the globe.

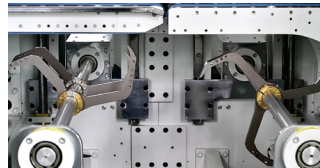

### Second Lock-bottom Section

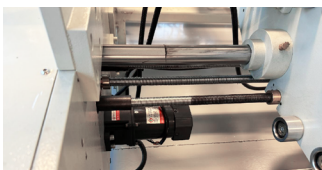

Process two sets of locking mechanism for a wider variety of carton types. Needed for 4/6 Corner.

### Back-fold for 4 & 6 Corner

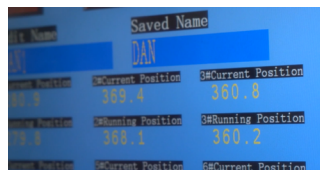

Servo-driven back-fold for smoother and more accurate carton folding, and assists setup of 4 and 6 corner cartons.

### Motorized Carriers

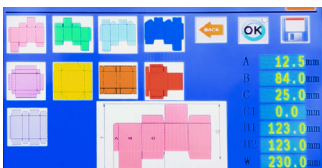

Operators adjust carrier positions directly from the control panel or remote instead of manually moving them.

### Job Memory Recall

Store a job's carrier positions to automate the positioning for future use without the need for manual reconfiguration.

### Automatic Setup Software

Automatically position the carriers by inputting the carton type and the dimensions to enable 3, 5, 10, and 15 minute makereadies

### In-line Print Inspection

Detects misprints in type, graphics, or barcode and separates the misprinted cartons the rest of the batch. Auto stops machine after 10 misprints.

### Gyro Turning System & Nick Breaker

The Gyro Turning System rotates the carton flow 90 degrees on the folder gluer enabling production of cartons such as beverage carriers in a single pass.

### In-line Windowing

Allows for the integration of transparent windows into cartons in a single pass. Glue comes from glue tray instead of a glue gun system.

### Pre-Feeder

Feeds cartons into the machine continuously to maximize machine throughput and minimize manual handling.

### Carton Packer

Collects and organizes finished cartons for greater efficiency and reduced labor.
